INTRODUCTION

United Continental Group Was Established By Professional Teams With 25 Years Of Field Experience In Petroleum Trade, General Commodities Trade, Marine Engineering And Marine Refurbishment Works.

We Consist Of Professionals Who Are Competent In On-shore & Off-shore E&I Works Which Include Engineering, Procurement, Fabrications, Construction, Installation And Commissioning.

Our Workshop, Which Is Located Near To Heavy Industrial Area Which Will Be Convenient For Our Clients To Engage With Us Effectively And Efficiently.

With A Good Analysis Of The Clients Requirement, We Have Established Workshop With Fabrication Facilities Which Can Cater All The Important Industrial Requirements Which Includes Fabrication Facilities, Electrical Testing, Instrument Calibration, Motor Balancing And Motor Winding.

VISION AND MISSION

VISION

To Be An Industry Leader In Providing Comprehensive Engineering, Procurement, Construction, Installation And Project Management Services In On-shore And Off-shore Power, Marine & Oil And Gas, Petroleum and Commodities Trading.

MISSION

To Exceed Client Expectation And Satisfaction By Providing Comprehensive, Effective And Innovative Solution In A Safe And Timely Manner.

QUALITY, HEALTH, SAFETY AND ENVIRONMENT

United Continental Group Recognizes Its Moral And Legal Responsibilities Under Occupational Safety And Health Act (OHSA) Legislation To Provide A Safe And Healthy Work Environment.

This Commitment Means That We Shall:

- To Provide A Safe And Healthy Workplace And Working Conditions For All, Including Employees, Contractors, Customers, And Visitors.
- To Provide Training To Enable All Employees To Work Safely
- To Comply With All Relevant Legislation And Industry Standards
- To Provide Support And Assistance To Employees
- To Consult With Staff And Contractors Where Relevant To Enhance The Effectiveness Of Procedures
- To Provide Adequate Resources To Aid Employees In Fulfilling Their Responsibilities
- To Conduct Investigations Into All Reported Incidents
- To Ensure That Appropriate Returns To Work Programs Are In Place
- To Conduct Regular Reviews And Evaluations Of The Health And Safety Systems In Place.

While At Work, All Employees (Irrespective Of Their Position) Will:

- To Take Reasonable Care To Ensure Good Health And Safety Procedures Are Implemented At All Times
- To Identify And Support Measures To Eliminate Or Minimize Unsafe Conditions
- To Assume Personal Responsibility For Their Own Safety And For Those Of Other Work Colleagues By Always Operating In A Safe And Appropriate Manner

ORGANIZATION CHART

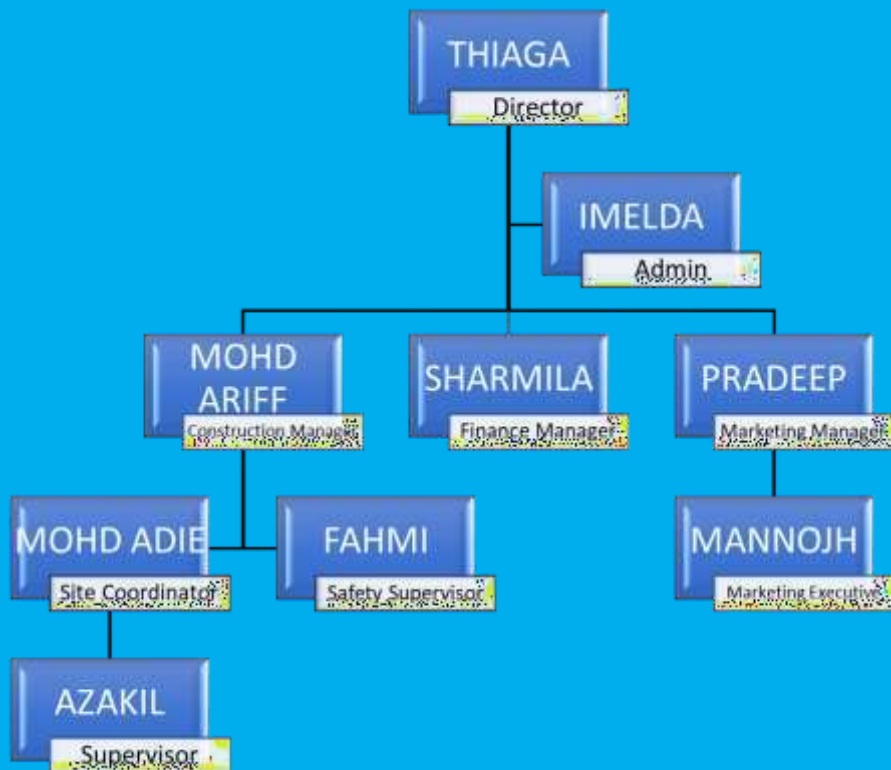

UNITED CONTINENTAL OFFSHORE

ORGANIZATION CHART

United Continental Engineering

SCOPE OF BUSINESS

GENERAL COMMODITIES TRADE

- Petroleum Trading
- General Commodity Trading

SHIP REPAIR & MARINE ENGINEERING

- Pneumatic Remote Control System
- Hydraulic System Repair & Services
- Electrical & Automation System
- Instrumentation & System Calibration

AIR CONDITIONING WORKS

- Airconditioning Repair
- Airconditioning Installation

ON-SHORE & OFF-SHORE E&I CONSTRUCTIONS

- E&I Engineering
- E&I Procurement
- E&I Installation
- ATEX & IEC Inspection
- E&I System Testing
- E&I Equipment Testing
- Commissioning & Pre-Comm

WORKSHOP FACILITIES

- Support Fabrication
- E&I Test Lab
- Valve Test Lab
- Electrical Motor Servicing
- Transformer Servicing
- Load Bank Testing

MANPOWER SUPPLY

- Welders
- Supervisors
- Engineers
- Safety Officers
- Safety Training

GENERAL COMMODITIES TRADE

PETROLEUM TRADING

We Are Directly Attached With Major Oil Producers From All Around The World.

Dealing With All Kind Of Petroleum Products Such As:
Petroleum Product

- Siberian Crude
- Light Crude
- Medium Crude
- Heavy Crude
- Bonny Light Crude
- LNG
- LPG
- JET A1
- JP54
- Light Circle Oil
- Petroleum Coke
- Diesel 10ppm, 50ppm, 500ppm
- Fuel Oil CST 180, CST 380

GENERAL COMMODITIES TRADE

We Supply General Commodities Products Such As:

- Crude Palm Oil - RBD, CP8, CP9, CP10
- Soya Bean - Non GMO, GMO
- Corn Grade - A, Grade B
- Wheat
- Rice & etc

SHIP REPAIR & MARINE ENGINEERING

SHIP REPAIR & MARINE ENGINEERING (PNEUMATIC REMOTE CONTROL SYSTEM)

1. Servicing, Troubleshooting and Periodic Maintenance of all Type of Main Engine Pneumatic Control System Valves.
2. Engine Types: Main B&W, SULZER, HANSHIN, AKASAKA, UEC, MITSUBISHI, DAEWOO.
3. NABCO & WABCOTrained Specialist.
4. Simulation Test of Main Engine Pneumatic System.
5. Supply of Pneumatic System Spare Parts.

Specification

Maker: Nabco, Rexroth, Wabco

3/2, 5/2 Way Valve

Reversing Cylinder

EP Converter

Air Source Unit

Filter

Solenoid Valve

Manual Control Valves

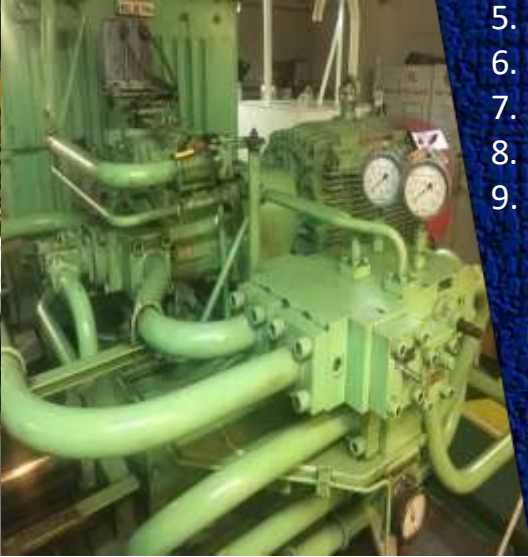

Reducing Valve & etc

SHIP REPAIR & MARINE ENGINEERING (HYDRAULIC SYSTEM REPAIR & SERVICES)

Repair & Servicing for:

1. Hydraulic Valve Remote Control System
2. Hydraulic Motor
3. Hydraulic Winch System
4. Hydraulic STAFFAMotor
5. Hydraulic CPP Control System
6. Hydraulic Bow Thruster Motor
7. Hydraulic Steering Gear System
8. Hydraulic Pump, Hoses & Power Pack
9. Supply of New & Reconditioned Hydraulic Pumps, Motors

SHIP REPAIR & MARINE ENGINEERING (ELECTRICAL & AUTOMATION SYSTEM)

1. Servicing of M&E Manoeuvring Remote Control System.
2. Main Switchboard & Switchgear Testing, Repair & Commissioning.
3. Control Panel New Design and Retrofit.
4. Calibration of Alarm Monitoring System.
5. Calibration Services for KW, Ampere, Voltage Meters & Pressure Gauges.
6. Servicing & Maintenance of Boiler Control Automation System.

SHIP REPAIR & MARINE ENGINEERING (INSTRUMENTATION & SYSTEM CALIBRATION)

Servicing, Calibration & Supply

1. Air Purging System
2. Geo Pal Gas Leak Monitoring System
3. Focus 1800 AWS
4. RTE
5. Heat, Smoke, Gas & Flame Detector
6. Cargo Pressure & Temperature Alarm System
7. Alpha Laval EPC System
8. Gas Detection System
9. Tank Gauging System
10. Alarm Monitoring System
11. ACB (Air Circuit Breaker)
12. MMCTape
13. Oil Mist Detectors
14. 15 PPM Oily Water Separator
15. Pressure Switch
16. PT-100 Temperature Sensor
17. Thermocouple
18. Fire Alarm System
19. Portable Gas Detector

ON-SHORE & OFF-SHORE E&I CONSTRUCTIONS

ON-SHORE & OFFSHORE E&I CONSTRUCTIONS

E&I MATERIAL PROCUREMENT

Our Experience In The Industry Over The Years Has Meant That We Have Built Up A Vast Global Network And Strong Links Of Trusted Suppliers And Vendors. And Because We Only Deal With The Best, It Can Be Assured That Our Supplies Will Arrive On Time And Has The Ability To Source Material With Exotic Specification As Well As Higher Standards.

Our Integrated Procurement System Is Also Used To Track And Manage Materials From Requisition Stage To The Receiving End At Site. With Experience And Competency With Proper Management, United Continental Group Is Able To Collaborate More Closely With Our Clients, Partners And Suppliers, To Effectively Manage All Our Procurement Processes And Needs.

Our Service Include:

- Negotiation With Vendors
- Procurement Of Equipment And Materials
- Purchasing And Expediting Of Materials
- Inspection Services (FAT & Site Inspections)
- Material Control And Warehousing
- Logistics Support Services

ON-SHORE & OFFSHORE E&I CONSTRUCTIONS

E&I INSTALLATION

United Continental Group Provides Full Spectrum Of Electrical Services Required By Multinational Companies In The Petroleum, Petrochemical And Oil And Gas (Onshore And Offshore) Industries.

Our Large And Global Pool Of Skilled Craftsmen And Specialists Combine Their Skills To Deliver The Complete Suite Of Electrical Construction And Installation Works.

Our Team Of Engineers Specialize In Delivering Exceptional Quality Instrumentation Works To A Diverse Clientele Of Multinational Companies In The Petroleum, Petrochemical And Oil & Gas (Onshore & Offshore) Industries.

We Have Earned The Distinctive Reputation Of Being A Reliable And Trustworthy Partner In The Industry With An Excellent Track Record. Our Services Are:

- Cable Trays, Ladders Installation (Above & Underground).
- Cable Laying, Glanding And Termination.
- MCT (Multiple Cable Transits Installation).
- Field Instrumentation And Device Installation Such As Sensors, Transmitters And Gauge For Pressure, Level, Temperature And Flow.
- Electrical Equipment Installation Such As Switchgears, Switchboard, MCC, Control Panels, Motors, Transformer, Junction Box, Ups And Generator Sets.
- E&I System Installation.

ON-SHORE & OFFSHORE E&I CONSTRUCTIONS

ATEX & IEC Inspection

Through our knowledge and experience here in United Continental Group, We have the Capacity & Competency to assist our Client in Inspection, Verification and Quantification of ATEX equipment for the compliance & Integrity. Our Inspectors are qualified and are capable of Inspection based on IEC 60079 standards.

ON-SHORE & OFFSHORE E&I CONSTRUCTIONS

E&I SYSTEM TESTING

Our Team Of Field Engineers And Inspectors Who Are Competent Are Able To Identify Any Defects And Provide Any Recommended Actions. To Ensure Our Clients Facility Is Safe, We Offer Rectification Solutions To Ensure Any Remedial Actions Are Closed Out. Leaving Your Assets Safe And Reducing Any Down Time For Non-conforming Pieces Of Equipment.

Types Of Testing Provided:

- Insulation Resistance Test
- Loop Check
- Switch Polarity Test
- Earth Continuity Test
- Earth Resistance Test

ON-SHORE & OFFSHORE E&I CONSTRUCTIONS

E&I EQUIPMENT TESTING

Electrical Testing For Equipment Is Important To Maintain The Minimum Safety Standards. It Is Crucial To Ensure Secure Operating Standards For Any Product That Utilizes Electricity. We In United Continental Group Adhere Strictly To Both Local And International Standards And Requirements.

Testing Services Provided Are:

- Current Injection & Ductor Test For Switchgear, Switchboard & MCC
- Ratio Test, Winding Resistance, Vector Group & Short Circuit Test For Transformer
- Hi-pot Test For Motors.

ON-SHORE & OFFSHORE E&I CONSTRUCTIONS

COMMISSIONING

Commissioning Appears At The End Of A Project, Not Continuously During Its Life-cycle; Our Field Experience Shows That For Clients (Main Contractors And End Users) It Is Not Always Convenient To Deploy “In-house” Expertise, But The Outsourcing Of Database, Coordinators, Supervisors, Technicians Is A Preferable Solution.

It's A Critical Process, It's A Bottleneck For All Disciplines (Civil, Structure, Piping, E&I, Painting) And At All Phases (Engineering, Procurement, Construction) Of A Project. Project Schedules Are Always Tight, And The Overlap With Construction Causes A Huge Impact On The Progress.

Here In United Continental Group, We Have The Experience, Capacity And Competency To Perform Various Commissioning For Various Electrical Equipment, System And Sub-system Which Includes Facilities.

WORKSHOP FACILITIES

WORKSHOP FACILITIES SUPPORT FABRICATION

Our Structural Steel Fabricators Have Years Of Experience In Fabricating Structural Steel Products For Various Sectors. The Construction Industry Excessively Relies On Structural Steel Fabrication To Create Various Structural Steel Products. Electrical And Instrument Support And Plinth Is A Part Of Our Forte And We Provide Architectural Metal Work, Structural Steel Work And Secondary Steel Work For Main Contractors In The Building And Construction Sector. We Detail Plans, Drawings And Structural Constructions Details For The Erection Of Steel Members.

Our Services Include:

- Welding (All Type)
- Cutting
- Grinding
- Gouging
- Power Tooling

WORKSHOP FACILITIES E&I TEST LAB

The Primary Significance Of Calibration Is That It Maintains Accuracy, Standardization And Repeatability In Measurements, Assuring Reliable Benchmarks And Results. Without Regular Calibration, Equipment Can Fall Out Of Spec, Provide Inaccurate Measurements And Threaten Quality, Safety And Equipment Longevity.

Here In United Continental Group, We Have A Wealth Of Knowledge In Instrumentation And Electrical Apparatus Covering A Variety Of Industries. Our Laboratory Is Capable Of Providing Calibration And Testing Services For Most Laboratory And Field Instruments And Also Electrical Apparatus.

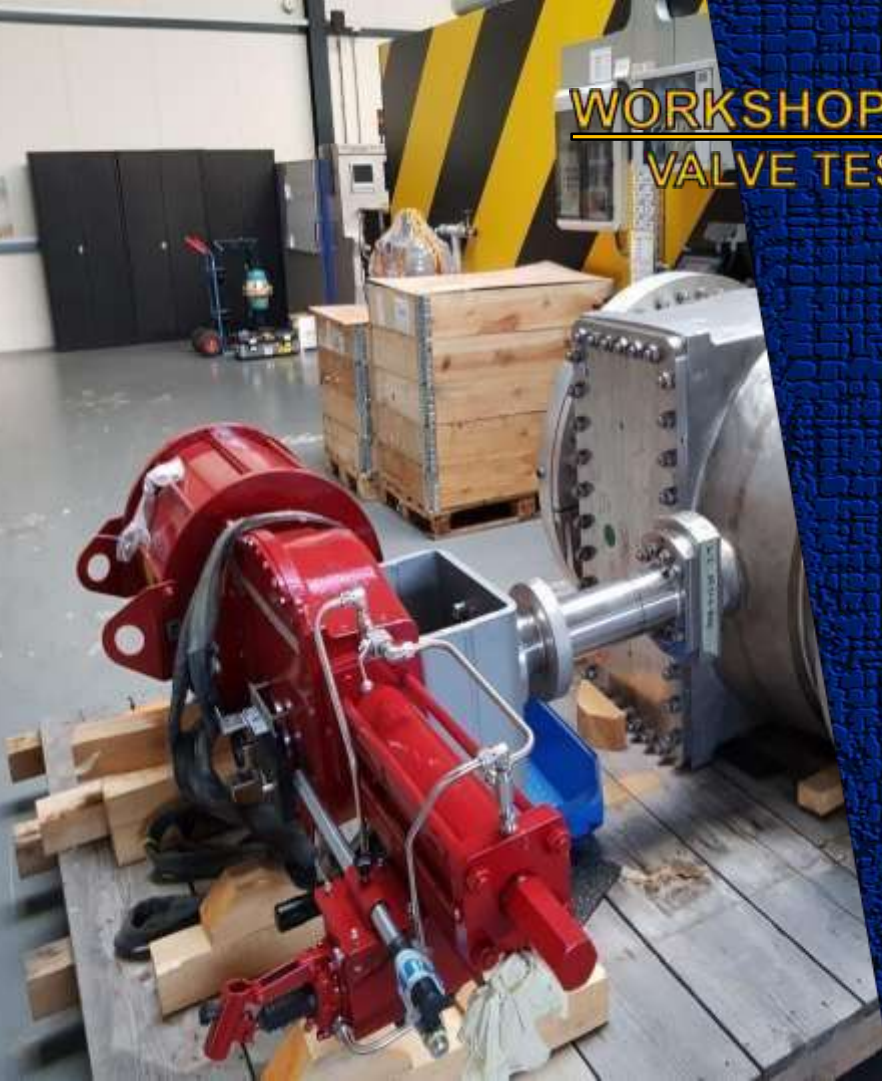

WORKSHOP FACILITIES VALVE TEST BENCH

Quality Inspections And Valve Testing Are Extremely Important When It Comes To The Smooth Running Of Fluid Systems. Industrial Valves Are An Integral Part Of Many Industrial Machines And Even The Tiniest Malfunction Can Have A Ripple Effect On The Rest Of The Machine. Therefore, It's Important To Carry Out The Right Checks To Ensure Safety And Efficiency.

Here In United Continental Group, We Specialize In Hydrostatic And Pneumatic Valve Testing Complete With Repair And Overhauling. To Meet Custom Testing Criteria, We Have A Full Line Of Valve Testing Systems And Facilities.

Our Valve Testing Systems Are Designed To Test Gate, Globe, Check, Plug, Ball, Needle, Butterfly, Control, Safety Relief Valves, And Special Valves, Fittings, And Pipe. We Will Conduct Comprehensive Valve Testing In A Regulated Environment To Ensure That Your Valves And Equipment Are Working As Intended.

WORKSHOP FACILITIES

ELECTRICAL MOTOR SERVICING

OVERHAUL, REWINDING & VARNISHING:

- Of Electrical Motor AC/DC.
- Of Submersible Motor Up To 6.6KV.
- Of Electrical Motor For All Ex Types.
- Of Alternator Up To 1500 KVA.

ROTATING EQUIPMENT DYNAMIC BALANCING

- Up To 5 Tons Weight And 6 Meter In Length.

LOAD TESTING

- Perform Submersible Full Load Testing Up To 300 KW.
- Perform Ac Motor-free Load Test Up To 300 KW.

WORKSHOP FACILITIES

TRANSFORMER SERVICING

Over Time, A Transformer Can Encounter Critical Issues That Lead To Failure And Can Cause Problems. Regular Maintenance And Inspection Of A Transformer Is Important And Can Prevent Such Situations And Need For Repair.

Maintenance Of A Transformer's Components Aims To Maintain Both The Inner And External Parts In A Safe Functioning Condition And Minimize Any Transformer Downtime.

In United Continental Group, Our Technicians Have Extensive Knowledge Of All Aspects Of Transformer Repair And Maintenance Including Transformer Rewinds. We Have A Wide Range Of Experience Of Meeting Industry-specific Needs And Can Work With Your Maintenance Teams In Implementing The Solution To The Problem. We Can Also Assist In Creating An Effective Maintenance Plan.

Our Services Are:

- Transformer Repairs And Rewinds
- Transformer Inspection, Testing And Fault Diagnostics, In Situ Or In Our Workshop
- Equipment Disconnection And Removal
- Electrical Testing
- Oil Analysis
- Transformer Installation And Commissioning

WORKSHOP FACILITIES LOAD BANK TESTING

A Load Bank Test Simulates A Power Outage In A Controlled Environment While Being Monitored By Our Highly Experienced Technicians. The Test Confirms The Ability Of The Emergency Power Supply System To Run Up To Its Rated Kw.

United Continental Group Is One Stop Solution From Load Bank, Cable And Professional Team To Install And Test Your Genset.

AIR CONDITIONING WORKS

Airconditioning Systems Are Long-term Investments, So It Makes Sense To Have Clean Air As A Long-term Partner. Our Experience And Expertise In Servicing, Maintenance And Repair Will Help Prolong The Life Of Your Air Conditioning Unit And Ensure It Operates At Its Best. By Performing Scheduled Preventive Maintenance We Can Avoid Breakdowns And Poor Performance Which Will Save Cost Over The Life Of The System.

It's Not Just About Getting The Most Out Of Your Cooling, Ventilation Or Heating Installation We Can Ensure A Continuation To Meet Ever-changing Health And Safety Regulations.

Service That We Provide:

- System Maintenance
- System Repair
- Filter Replacement
- System Vent Cleaning
- New Installation

MANPOWER SUPPLY

United Continental Group Is Capable Of Supplying Professional, Technical, And Non-technical Staff And Workers For Oil & Gas, Refineries, Petrochemical Facilities And Pipeline Projects. Our Company Is Managed By Engineer And Professionals And Has Grown To Become An International Player In Permanent And Contract Staffing For These Industries.

Projects For Hydrocarbon And Chemical Facilities Require Mobilization Of Many Skilled People In Remote Areas. United Continental Groups Understands Different Phases And Categories Required And Have The Expertise In Serving The Industry In Selection, Placement And Management Of Right Professionals And Skilled Manpower. With Our Professional Approach, Commitment, Quality, And Safety Records, We Have Gained The Absolute Trust Of Our Clients.
